Undergraduate Research Internships

Join us this summer for an exciting ten-week research stay in Germany. The Chair of **Communication and Distributed Systems** (COMSYS) at **RWTH Aachen University** offers different projects in the field of **computer networking**, **security**, and **privacy** as part of the university's Undergraduate Research Opportunities Program (UROP International).

When: May 10, 2019 - July 20, 2019 (**applications due January 15, 2019**)
Where: **Aachen, Germany** (in the heart of Europe)
Who: Undergrads at North American universities with US or Canadian citizenship or permanent resident status, GPA of 3.2 or higher, no German skills required

Topics offered by us for summer 2019:

• **Efficient but Secure: Protocols for Security and Privacy in Communication Systems** (Project #987)
• **Recognizing Websites in Tor with Machine Learning** (Project #1027)
• **Secure collaboration within the Industrial Internet of Things** (Project #1028)
• **Analysis and Improvements of Distributed Ledger Technology** (Project #1032)

Thinking the Future
Zukunft denken
